DEATH AND SERIOUS INJURY/ILLNESS REPORTING INSTRUCTIONS

- **A fatality must be reported within 8 hours**
- **An in-patient hospitalization, amputation, or eye loss must be reported within 24 hours – at any time during the life of the claim**

Employers must **immediately *** report to CalOSHA any work-related death or serious injury or illness. Report to the CalOSHA office closest to the location where the incident occurred.

Employers are encouraged to do so by telephone, 24 hours a day, 7 days a week. Below is a link to obtain your local CalOSHA office contact information. *CalOSHA recommends, when in doubt, report.*

The reporting of a fatality will trigger a CalOSHA investigation.

The fine for untimely reporting is \$5,000.00 and they will not mitigate the fine.

EFFECTIVE JANUARY 1, 2020

“Serious injury or illness” means any injury or illness occurring in a place of employment or in connection with any employment that requires **inpatient hospitalization**, for other than medical observation or diagnostic testing, or in which an employee suffers **an amputation, the loss of an eye, or any serious degree of permanent disfigurement**, but does not include any injury or illness or death caused by an accident on a public street or ***highway, unless the accident occurred in a construction zone.***

“Serious exposure” means any exposure of an employee to a hazardous substance when the exposure occurs as a result of an incident, accident, emergency, or exposure over time and is in a degree or amount sufficient to create a ***realistic possibility*** that death or serious physical harm in the future could result from the ***actual hazard created by the*** exposure.

Thus, beginning in 2020, California employers will need to comply with several changes in the reporting requirements, including:

Reporting obligations will be triggered for **all inpatient hospitalizations** (regardless of the length of that hospitalization) for reasons other than medical observation or diagnostic testing, **regardless of when the inpatient hospitalization occurs during the workers’ compensation claim.**

Employers will need to report accidents involving any ***“amputation” or “the loss of an eye.”***

Medical Definition of Amputation: Amputation: ***Removal of part or all of a body part that is enclosed by skin.*** For example, this may be the loss of a fingertip or toe.

Employers will need to report serious injuries, illnesses, or deaths in the workplace or in connection with any employment **arising from crimes by their coworkers or even third parties.** This sets the stage for the impending general industry workplace violence regulations.

Serious injuries or fatalities caused by accidents on a public street or highway if “the accident occurred in a construction zone” will also trigger Cal/OSHA reporting requirements. Cal. Labor Code Section 6302(h).
